Lester Snow
CalFed Executive Director
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Dear Lester Snow,

We are writing to you today to express our opinion concerning the CalFed program. As concerned citizens of the American and Sacramento watersheds, we urge you to adopt a CalFed plan that maximizes water efficiency and conservation, removes barrier dams, increases instream flows, and acquires and restores habitat for fish and wildlife. Finally, please do not include any new dams or new offstream storage reservoirs.

Thank you,

David Olson and Karen Hirsch
