

CALFED Brown Bag Seminar Series Presents

Shallow Water Habitat: The Good, the Bad and the Ugly

**Tuesday, July 10 – 12 noon to 1 p.m.
Delta Room -- 650 Capitol Mall -- 5th Floor**

What is shallow water habitat? If you are a seasoned CALFED-er, you may recall this buzz phrase was used when the CALFED program was being developed. But why was it important then? Is it still important now? Please join us for a lunch-time panel presentation to find out.

- Dr. **Larry Brown**, U.S. Geological Survey, will explain what shallow water habitat is, its historical importance and some of the hypotheses that guided our planning in CALFED documents.
- Dr. **Ted Sommer** and **Lenny Grimaldo**, both of the Department of Water Resources, will share their experiences testing those hypotheses at the Yolo Bypass and flooded Delta islands, respectively.

The seminar will conclude with a summary of lessons learned and questions/discussion from the audience. It is intended for CALFED agency staff and any interested persons who would like to learn more about the Delta in an informal setting.

Please bring your own lunch.

An educational series dedicated to ideas for California's Delta

Please allow **extra time** for parking and security screening procedures at 650 Capitol Mall. Current photo identification is required. Cameras and cell phones with camera capability are prohibited without prior written review and approval from CBDA, Federal Protective Service and GSA Property Management for the 650 Capitol Mall building. Please contact Terry Smith at the California Bay-Delta Authority at (916) 445-5345 or tsmith@calwater.ca.gov for building access information.
