Lester Snow
Executive Director, CALFED

I oppose CALFED's plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs. CALFED's plan to raise Shasta dam would flood segments of the upper Sacramento and McCloud rivers. CALFED's proposed site offstream storage reservoir would require massive water diversions from the Sacramento River

I urge CALFED to expand water efficiency, conservation and reclamation programs instead of building new dams and canals.

I support CALFED's proposed restoration goals for the Central Valley including removing some facilities such as the Englebright dam, that act as barriers to migrating salmon, acquiring important riparian habitat and increasing instream flows for fish, wildlife and recreation.

We cannot solve the ecological problems cause by dams and diversions by building more dams and diversions

Thank you for your time and consideration. I look forward to hearing your position on this issue.

Sincerely,
