Dear Mr. Snow:

Please consider this letter a response to the revised CALFED plan.

I oppose CALFED'S plan to raise Shasta dam, which would flood segments of the upper Sacramento and McCloud rivers.

I urge CALFED to expand water efficiency, conservation, and reclamation programs to stretch our existing water supplies.

I support CALFED'S proposed restoration goals for the Central Valley, including removing some facilities such as the Englebright dam, that act as barriers to migrating salmon. The solution to our problems does not lie in building still more dams and diversions.

Thank you for your time,

Sincerely,
