CALIFORNIA COAST 2 August 1999
Pacific Grove, Monterey Peninsula

Dear Mr. Breitenbach,
I was disappointed by the following claims of the draft EIR:
1) New dams!?! Haven't you read Marc Reisner's Cadillac Desert? Dams & reservoirs don't work.
2) Restoration of flows to SF Bay - its OUR water; stop shipping it south. Our Bay needs help to be healthy.
3) Stop subsidizing corporate agriculture. Make farmers pay for water projects, NOT taxpayers. Respectfully,
