Lester Snow
Executive Director
CalFed Bay/Delta Program
1416 Ninth St., Suite 1156
Sacramento, CA 95814

Dear Mr. Snow:

The best way to restore the San Francisco Bay and Sacramento-San Joaquin Delta ecosystem to its healthiest state is to practice sensible conservation, pollution prevention, and better management of groundwater and watersheds.

CalFed's draft plan should reject any new or expanded dam, reservoir or canal during the first seven years (Stage 1) of the program. I would like to see the emphasis being on preventing water pollution, using water more efficiently, and increasing fresh water flows.

Please help prevent the death of one fo the world's great wildlife habitats.

Sincerely,

Arlen Grossman

cc: Gov. Gray Davis
