July 30, 1999

Dear Mr. Snow,

I am responding to the Cal Fed plan to raise Shasta dam, as well as the number of dams proposed that will divert water from the Sacramento River. As a citizen of Redding, CA, I am concerned about putting water rights issues regarding farming practices that are environmentally damaging, as well as development in natural flood planes.

Better planning and land use seems to be a less studied and less expensive alternative to building dams. I am opposed to further

OMR

dam construction.

I would appreciate a response back.

My name and address is:

Erin Healy
3330 Lawrence Rd
Redding, CA 96002

Sincerely, Erin Healy
