Lester Snow
Executive Director, Calfed
1416 Ninth St.
Sacramento, CA 95814

Mr. Snow —

I feel very strongly that Calfed use the money for conservation purposes and not for building new dams or raise existing dams.
I believe the Central Valley water issues are serious one, yet your approach is all wrong! Stop now and look better @ improving the levee systems + thats it!
Improve the fish ladders + take down Englebright dam!
I would appreciate a direct response + information about upcoming meetings. Improve your public involvement + don't exclude us. Thank you —
