July 31, 1999

Dear Mr. Snow,

I'd like to submit my comments on the revised CALFED plan.

I oppose CALFED plans to build new dams + diversions. I understand that we need to critically think about our water supply but I think we need to expand water efficiency, conservation and reclamation projects to stretch our existing water supplies.

I support CALFEDs proposal to remove existing dams, such as Englebright dam.

Sincerely,

Janine Kraus
