Robert J. Myska

Dear Rick Breitenbach,

In regards to California's future water needs, I would like to call your attention to my concerns.

(1) Please try conservation methods before considering dams + reservoirs.

(2) Please restore flows to the Bay/Delta.

(3) Please, make realistic projections of future water needs including potential savings from conservation.

(4) Finally, do not allow taxpayer subsidies for unnecessary

new projects – the users must pay.

Thankyou for taking the time to read this, & considering the well being of the land.
