0202

Dear Mr. Snow,

I oppose CALFED's plan to raise dams or build offstream storage reservoirs in the Central Valley. The plan to raise Shasta Dam would flood segments of the upper Sacramento and McCloud Rivers.

Please expand water efficiency, conservation & reclamation programs to expand our existing water supply rather than building new dams & canals. This can be done by switching to higher value & less water consumptive crops & by installing water meters.

Thanks for your consideration,

Tanya Shaffer
