AUG 1 9 1999

Lester Snow
Executive director, CALFED
1416 9th St.
Sacramento, CA 95814

Dear Mr. Snow

Please acknowledge my opposition to the CALFED plan.
I disagree with the approach of the plan to increase surface water storage by increasing reservoir and dam heights.
Consumer water conservation, water efficiency and education are key to maintaining an state water resources.
Pork belly projects such as constructing new dams destroy natural resources, eliminate or curtail beneficial uses such as recreation, whitewater boating.
Please consider scientific studies and alternative approaches to the current CALFED.
