Dear Mr. Snow,

I think it sucks to build more dams and diversions in the Central Valley. Raising the Shasta Dam would flood segments of the upper Sacramento and McCloud rivers.

I think Calfed should expand water efficiency, conservation, and reclamation programs to stretch our existing water supplies, instead of building new dams and canals. This could be done by switching to higher values and less water consumptive crops and by installing water meters for all agriculture and urban users.

I do support Calfed's proposed plans for restoring the Central Valley.

Sincerely,
Jessica Panganiban
