Lester Snow
Executive Director CALFED
1416 Ninth St.
Sacramento, Ca 95814

I am rafting today on the South Fork of the American River. I love this river and want my children and grandchildren to enjoy this river too.

I oppose CALFEDs plan to increase water storage raising dams or building new dams. I urge CALFED to expand water efficiency, conservation and reclamation projects instead of building more dams!

I support CALFED's restoration goals, including some facilities, such as Englebright dam. We cannot solve ecological problems caused by dams by building more dams.

Please let me know your position on these issues.

Thank you
Jon A Jenny
