AUG 19 1999

Dear Mr. Snow,

I oppose Calfeds plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs. Calfeds plan to raise Shasta dam would flood segements of the upper Sacramento & McCloud rivers! Calfed's proposed sites offstream storage reservoir would require massive water diversions from the Sacramento river.

I urge Calfed to expand water efficiency conservation + reclamation programs to stretch our existing water supplies, instead of building new dams + canals.

We can't solve the ecological problems caused by dams +

diversions by building new dams + diversion.

Thanks for your time + consideration.

Sincerely,

Tiffany Gross
