Lester Snow 8-7-99

Executive Director, CALFED

1416 Ninth Street

Sacramento, Ca 95814

Dear Mr. Snow,

Please consider this letter a response to the revised CALFED plan.

I believe you should re-consider the plan to increase surface water storage in the Central Valley we need to find another way of conserving our water; rather then making an extreame effort to divert from the Sacramento River.

By possibly installing water meters we can possibly grow in the usage of water, rather then building more dams and diversions.

I appriciate your time and
Consideration to my feedback

Sincerely,

Charlene Turner
