Lester Snow
Executive Director CALFED
1416 NINETH ST
SACRAMENTO CA 95814

I'm glad to see CALFED's restoration goals for the Central Valley, especially removing dams that get in the way of salmon spawning.

I would like to see even more emphasis on conservation and reclamation, instead of spending our tax money on new dams and reservoirs.

I oppose raising dams or diverting water from the Sacramento River.

Thanks for your consideration
