Lester Snow
Executive Director, CALFED
1416 Ninth Street
Sacramento, CA 95814

Dear Mr Snow
Please consider this letter a response to the revised CALFED plan.
I oppose CALFED's plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs. CALFED plan to raise Shasta dam would flood segments of the upper Sacramento & McCloud rivers. CALFED's proposed Sites offstream storage reservoir would require massive water diversion from the Sacramento River.
I urge CALFED to expand water efficiency, conservation & reclama programs to stretch our existing wa

Supplies instead of building new dams + canals. This could be done by switching to higher value + less water consumptive crops + by installing water meters for all agricultural + urban users.

Thank you

Naomi Friedman
