I grew up in Pittsburg, California from 1942 - 1960. The river was important to my Italian families fishing life. The commercial fishermen almost fished the rives out due to economic greed. We cannot make the same mistake again. DO NOT BUILD ANY MORE DAMS. RESTORE OUR DELTA, THE RIVER FLOW, AND WATER QUALITY — Before Developers get any more water. Let the farmers and developers learn to live with what is currently available. enough is enough!
