Lester Snow
Executive Director, CALFED
1416 Ninth St.
Sacramento, CA 95814

Dear Mr. Snow:

Please understand that I oppose CALFED's plan to raise existing dams and building new offstream storage reservoirs.

I urge CALFED to stretch our existing water supplies instead of building new dams and canals. This could be done by switching to higher value and less water consuming crops and by installing and recreation.

I do support CALFED's proposed restoration work for the Central Valley, including removing some facilities which would help to solve our ecological problems. Thank you.

Sincerely,
Janet Sturtevant
