Dear Mr. Snow,

I am writing to express my opinions about the Sacramento-San Joaquin Delta Plan. I do not think that a dam or a canal is necessary. I am convinced the millions of gallons of water are wasted every year in California. The emphasis of any plan should be on conservation. Also any plan should include stringent measures to control pollution at its sources. Finally, the plan should include measures to preserve and expand wildlife habitat.

Sincerely yours,

Lin Wyant
