Lester Snow
Executive Director, CALFED
1416 Ninth Street
Sacramento, Ca. 95814

Understand that this is a letter in response to the revised CALFED plan.

I am opposed to CALFED's plan to increase surface water storage in the Central Valley by raising existing dams.

However, I do encourage CALFED to expand water efficiency by switching to higher value and less water intensive crops and by installing meters for agricultural and urban users.
