DEAR MISTER SNOW,

SEP 1 3 1999 805

IN RESPONSE TO THE REVISED CALFED PLAN:

I'M OPPOSED TO RAISING EXISTING DAMS OR BUILDING NEW RESERVOIRS. HUGE WATER DIVERSIONS FROM THE SACTO OR FLOODING PARTS OF THE SACTO & MC'CLOUD RIVERS ARE NOT THE WAY TO PROCEED. TRYING TO SOLVE THE ZOOLOGICAL PROBLEMS CAUSED BY DAMS AND/OR DIVERSIONS BY BUILDING MORE OF THE SAME IS NOT GOOD DECISION-MAKING.

I SUPPORT THE MORE ECOLOGICALLY-ORIENTED VIEWPOINTS OF INCREASED STREAMFLOWS FOR WILDLIFE & RECREATION; DAM ~~REM~~ & BARRIER REMOVAL FOR MIGRATING FISH, BUFFER WETLANDS FOR FLOOD CONTROL & WATER FILTERING, RE-ESTABLISHMENT OF RIPARIAN HABITATS, ETC.

I ALSO FAVOR WATER CONSERVATION, RECLAMATION, AND BETTER USE OF OUR AGRICULTURAL ALLOCATIONS.

THANKS FOR YOUR TIME AND THE CONSIDERATION OF MY POSITION. I'M LOOKING FORWARD TO HEARING YOUR POSITION.

SINCERELY

Richard Drechsler
