Lester Snow
Executive Director, CALFED
1416 Ninth Street
Sacramento, CA 95814

Dear Lester Snow,

The more education I get concerning the vital issue of water conservation in California, the more opposed I become to CalFED's plan to increase surface water storage and build more dams. Stop treating the symptoms of the problem and work toward the more sensible conservation solutions.

I would like to know what plans you have, and what proposals you support to expand water efficiency, and conservation. Please respond

PAUL LASHLEY
