SEP 1 3 1994 835

Dear Mr. Show,

I am writing as a concerned citizen of California. I am worried about losing the beautiful (few) rivers we have left to dams. I oppose CALFED's plan to build new dams in California.

I urge you, as my legislator, to oppose the building of new dams and increase the conservation of the existing dams & water supplies. These valuable, beautiful places cannot be replaced.

Please respond with your opinions & proposals.

Thank you,

Sabrina Fox
