

Subject: WATERSHED FUNDING DATABASE

You're invited to participate in the

California Watershed Funding Database

a new interactive site that offers streamlined service for those who need information about watershed funding opportunities and the agency personnel who wish to post such opportunities to our web-base database. The California Watershed Funding Database is now fully functional and can be found at <http://www.calwatershedfunds.org> <<http://www.calwatershedfunds.org>> .

We are still entering funding programs, with a focus on programs that have current information (e.g. upcoming deadlines, foundations with open deadlines).

Your comments on the site are welcome.

Please contact Kristin Cooper-Carter (530-893-5751, kcooper-carter@csuchico.edu) or Susan Strachan (530-894-1308, susanstrachan@digitalpath.net) with any suggestions.
