8/28/99

Dear Lester Snow

Please reconsider this letter in response to the CAL-Fed Plan. I oppose the planned project about the damming of the rivers. or raising the height of the dam.
I suggest water conservation & reclamation programs instead

I support CALFED's idea to restore goals for Central Valley: such as removing the Englebright Dam & support fish & wildlife.

Please send me a letter telling me what your stance is on these

851(2)

issues at this address.
