Dear Mr. Snow,

I am writing this letter as I sit along the bank of the American River. After hearing of the plans proposed by CALFED, I find myself disturbed.

I urge CALFED to expand water efficiency, conservation and reclamation programs, instead of increasing the number of dams and water storage resivoirs. This is not the solution.

We cannot solve the problems caused by dams and diversions, by building more dams and diversions

Thank you for your time.

Sincerely,

Heather Tricoli 6206 Solomon Ct
