Dear Mr. Snow:

As a California native & a lover of the environment & the outdoors, I wish to express my opposition to the revised CALFED plan.

I oppose CALFED's plan to raise existing dams or build new storage reservoirs. The ecological problems caused by dams & diversions cannot be solved by building more dams & diversions.

CALFED should expand water efficiency programs instead of building new dams & canals. Please save our rivers. They should remain so that all Californians can

appreciate & enjoy them. They are the legacy of California & should remain undammed for future Californians to enjoy.

Thank you for taking my opinion into account. I look forward to hearing your position on this issue.

Sincerely,

Melanie Ogren
