SEP 1 3 1999 872

8/28/99

Lester Snow
Executive Director, CALFED
1416 Ninth St
Sacramento, CA 95814

Dear Mr. Snow.

This letter is to express my opposition to CALFED's plan to increase water surface storage in the central valley by raising existing dams or building new ones.

I urge CALFED to expand water efficiency, conservation and reclamation programs to stretch existing water supplies.

CALFED'S restoration goals such as removing facilities such as Englebright Dam that is a barrier to salmon.

872(2)

Please do not build unnecessary dams when problems have already cause ecological ~~[illegible]~~ damage.

Sincerely,

Myra Johnston
