I would like these comments entered into the public record:

* During Calfed's "Stage I", please do not commit to building any new or expanded dams, reservoirs, or canals,
* Prevent pollution at its source to improve water quality,
* Announce serious investments in water conservation + efficiency, groundwater management, pollution prevention, and drinking water treatment
* Restore our rivers, bays, + fisheries by providing firm guarantees of more fresh water flows by caring for the land around our rivers;
* No more tax/payer subsidies on expanded dams & reservoirs
