

Workplan for the Drinking Water Subcommittee  
Draft June 7, 2002

June 28 Meeting: Location Request, Vacaville

Agenda topics

Current treatment, challenges and direction: CCWD and Vacaville (1 hour)

Process for synthesis of the definition of ELPHP, and assignment of 1 page essay on what it means each member. Includes discussion of Tom Zuckerman's draft narrative 1 hour  
EJ report 20 min

ROD and BDPAC commitment review (10 min) Work product needed from DWQP to plug ROD actions into the conceptual framework could be rolled into the synthesis process.

Policy on water quality and CALFED projects (from last time, GG will formulate see below) 20 min

Public comment

Action item review

July meeting

Review and process for synthesis of the 1 page assignment

Source control (presentation by Sacramento on wastewater challenges)

Drinking Water Policy – CVRWQCB

Current treatment, challenges and direction: SCVWD? Others?

Policy on water quality and CALFED projects This is the item we did not get to last time: all CALFED projects should assess impacts on WQ, provide mitigation or linkage to other projects in the program to assure continuous improvement.

August meeting

Sanitary Surveys other source water assessment processes –reports and discussion

Watershed activities to improve water quality (things to watch out for that could degrade water quality)

Water Use Efficiency and water quality

September meeting (to coincide with the BDPAC meeting in LA)

Workshop on ELPHP follow-up (synthesis of information, refinement)

Report on water quality changes from CALFED projects (? New, but MWD/CCWD/others can collaborate on this)

Report to BDPAC

Strategic planning
