SOURCE IMPROVEMENT	Group ranking	The activity contributes to ROD milestone ¹	The activity improves water quality for a broad group	This activity contributes to the objectives of the DWQP.	This activity is not adequately covered by programs outside of CALFED.	There is a clear, value-adding, role for CALFED in the activity	There is an existent broad based group in place to conduct this activity.	CALFED can leverage existing programs to add drinking water component.	The activity is timely.	The activity is part of the DIP.	The activity doesn't need major science studies to understand scope.	Major science studies/data collection are underway.

SCIENCE AND IMPROVED UNDERSTANDING		Group ranking	The activity contributes to ROD milestone ¹	This activity contributes to the objectives of the DWQP.	This activity is not adequately covered by programs outside of CALFED.	There is a clear, value-adding, role for CALFED in the activity	There is an existent broad-based group in place to conduct this activity.	CALFED can leverage existing programs to add drinking water component.	The activity is timely.	Major science studies/data collection are underway.	There are major knowledge gaps in this area.	Addressing this question assists in DWQP implementation/planning.
