- History
- Next steps

## North Delta National Wildlife Refuge Boundary Map

CA/NV Refuge Planning Office - Aug 2001

# Lower Yolo Bypass Feasibility Assessment

- Amendment to Yolo Basin Foundation agreement
  - Center for Collaborative Policy
- Assessment will identify
  - Full set of land management issues
  - Feasibility of focused stakeholder group
  - Feasibility of collaborative process, or other approaches
- If feasible, initiate stakeholder process
- *Outcome: Multi-party consensus-derived plan that informs future owners and managers*

# Importance to ERP

- High priority area for meeting ERP and MSCS objectives
- Potential tidal emergent wetland, tidal perennial aquatic, and riparian habitats
- Potential salmon rearing and Delta smelt and splittail spawning and rearing habitat
- Riparian habitat on Prospect contributed to favorable rating in recent milestones assessment
